ACTIVITIES

You can enjoy a full calendar of events, from devotional services and fitness classes to happy hours and creative writing workshops. Many of our seniors in shelter care enjoy filling their weeks with creative endeavors, live music performances, poker clubs and game nights. Our seniors in memory care enjoy the same rich and flourishing lifestyles but with a little more structure in their day. Your loved one can engage in activities like karaoke, arts and crafts and cooking.

DINING

Our culinary team is passionate about creating delicious, healthy meals made from fresh seasonal ingredients. That means you'll have plenty of time to enjoy great dinner table conversations with sumptuous restaurant-style meals in our elegant dining room. If you have a loved one in our memory care program, they will thrive in our supportive dining environment that encourages socialization with others without sacrificing the security found in routine and structure.
