ACTIVITIES

Join friends for a B-Fit fitness class and then meet up for a trip to the local art museum or a jewelry-making class. For memory care residents, the Clare Bridge Daily Path is an evidence-based approach that offers a gentle structure of six planned programs per day, which maintain our residents' abilities and encourage the use of their current skills. These structured activities come with engaging options like trivia, the garden club and resident socials.

DINING

Make a light meal at your kitchenette or head down to the dining room for menu options that are all about you. You can also take advantage of our private dining room, pub and coffee shop. And we know those living with dementia are at a greater risk for poor nutrition and weight loss. That's why your loved one will have opportunities to select healthy, dementia-friendly menu choices during mealtime. They'll also benefit from personal dining assistance as needed.
