ACTIVITIES

You'll see our residents enjoying themselves at happy hours, ice cream socials and crafts classes. They also participate in art projects, karaoke, puzzles, pet therapy and outdoor activities like gardening. We also offer excursions that can include trips to attractions such as the California Governor's Mansion in Sacramento and Old Sacramento State Historic Park. Every activity is part of a carefully designed care plan to help your loved one live their best life.

DINING

Our dining program includes dementia-friendly menus and personal assistance for those who need help during mealtimes. Home-style meals with entrees such as grilled chicken with garden salsa, or Mexican stuffed pepper and baked pollock are served three times a day along with snacks. We keep mealtimes routine, seating all residents together at the same time and at the same table to help alleviate added stress and confusion.
