ACTIVITIES

When it comes to daily activities, your loved one will have plenty of options. Trivia games, B-Fit fitness classes and crafting workshops are just a few dementia-friendly programs. Seniors living with dementia, including Alzheimer's, have specific needs, like predictability and stability in their schedule. But that doesn't mean sitting around doing nothing. We pair up memory care residents who have similar abilities to help them maintain a sense of fitting in.

DINING

Dining is one of life's greatest pleasures. That's why we've designed a warm and rewarding nutrition experience to give your family member the dignity and independence they deserve. Your loved one will enjoy healthy and delicious meals every day. By offering dementia-friendly menus, personal dining assistance and a supportive environment that encourages familiarity and socialization, we offer compassionate and attentive care to meet your loved one's needs.
