ACTIVITIES

Our activity calendars are tailored to our residents' unique interests and skill levels. Wii bowling, billiards, garden club and outings to restaurants —these are just a few examples of engaging activities for assisted living residents. Our memory care residents enjoy a gentle daily structure tailored to help preserve their abilities and encourage the use of their current skills with brain games, fitness activities, music programs and art classes.

DINING

Enjoy healthy and delicious meals each day with our restaurant-style dining. Our culinary team is passionate about great food and prepares each dish to create a memorable dining experience. For our memory care residents, we offer dementia-friendly menus and personalized dining assistance as needed. We typically let them eat each meal with the same people in the same place to promote familiarity and help avoid stress.
