ACTIVITIES

Here, you could pursue your passions. Join one of our many social clubs, attend a group fitness class or volunteer for your favorite cause. You have choices! Our residents help create upcoming calendars with their ideas, so there's something for everyone. Our memory care residents have an activities calendar with programs like B-Fit, reminiscing, dancing, and InTouch adventures where you use an intuitively designed touch-screen computer to explore the outside world.

DINING

Our dining program is all about you. At our menu chats, you can make requests, suggestions and share family recipes. Enjoy restaurant-style meals in our elegant dining room or reserve a private dining room for special events. For our memory care residents, we keep mealtimes routine. Our supportive dining environment encourages familiarity and socialization. Residents dine at the same time everyday and sit with familiar people, and place settings to provide ease during mealtime.
