ACTIVITIES

Our goal is to provide opportunities for your loved one to live their best life here. One way we do that is by offering dementia-friendly programs like gardening, music programs, brain games, specially-designed fitness classes and art workshops. Because it's also important for each resident to feel like they fit in, we create peer groups with residents that share similar skills and abilities.

DINING

Three home-style meals and delicious snacks are served daily in our dining area. To help alleviate any confusion or added stress, we keep mealtimes very routine for your family member. All residents sit together at the same time and same table each day. And our care associates are trained to address dining challenges, such as difficulty swallowing or handling utensils, using prompts, adapted recipes and specialized table settings.
