ACTIVITIES

Staying socially connected is an important part of aging well. That's why we have a very active social program that includes our B-Fit exercise program, nature walks, crafts, games, devotional services and yoga. Our memory care residents enjoy chair tai chi, gardening, music programs and crafting. Each of these activities is part of a carefully structured, person-centered care program to help our residents live their best life, even with advanced expressions of the disease.

DINING

Head down to the dining room for menu options that are all about you. We work to include your suggestions, feedback and even your family recipes in our menus. Did you know people living with dementia are at a greater risk for poor nutrition and weight loss? That's why we use mealtime to offer healthy menu choices and create a sense of belonging. Our dining program also includes dementia-friendly menus with easy-to-manage selections.
